Board of Intermediate and Secondary Education B.I.&S.E. Gujranwala Pakistan. Marks 713/1100

## EXPERIENCE

- ❖ Working as MERN stack developer at Smart soft studios about last 2.9 year.
- ❖ Former working as MERN Stack developer at Heapware, worked here about 7 months.
- ❖ As a developer, my total experience is 3.5+ year in software industry

## Achievements/Tasks

- ❖ Worked on BarBerOne (enables local business owners to grow their business by using appointment booking software and various marketing strategies to retain customers for life. A website widget also to integrate in any site and make appointments related to business, frontend (Reactjs, Typescript, styled-components) + backend(Nestjs, mongodb, stripe integration).
- ❖ Worked on DoctHub (find a specialist near you and make an medical appointment, manage doctor record, appointments on calendar by three different views like daily, weekly, monthly, patients record, patient relatives record and video appointment also using agora, frontend(Nextjs + bootstrap, translation(English, French, arabic)) + backend(Nestjs, mongodb, stripe integration).
- ❖ Worked on booking (same like BarBerone with different ui design with advance features like Paypal integration, gift-card translation in 3 different languages using react-i18n, frontend (Reactjs, Typescript, styled-components) + backend (Nestjs, mongodb + sequelize, stripe integration)).
- ❖ Worked on Bōzt (like boast, is a social application for chatting, sharing and discovering new places to get great food, show restaurants in google map also write some api's in node express

and sql, frontend (Reactjs, styled-components) + backend (Nodejs, express, sequelize, yulp for getting restaurants data)

- ❖ Working on YallaGive (Charity site for fundraised, people donate and fundraised as individual or company, create api's in nest and mongodb, frontend (Reactjs, styled-components) + backend (Nestjs, mongodb)).
- ❖ Design and develop mobile app backend named Palz (Social app like some similar features of tiktok, people sign up using gmail or social login like google, facebook, apple, main feature is user create event, create group also add as participant in other users group/event, like users profile, see user profile, get vip membership, api's in node and express with sequelize, push notifications using firebase)
- ❖ Working on Metrix (A Project and team management website like trello, create api's in node express and sql database using knex, frontend (Reactjs, tailwind css) + backend (Node, express and sql)).
- ❖ Worked on Katanemo frontend (Nextjs, typescript, tailwind css). **Katanemo** helps developers to build modern SaaS apps without ANY infrastructure tax.
- ❖ Worked on Jigen marketplace (A Blockchain and Nft base marketplace, create some api's in node express and mongodb, frontend (Nextjs, typescript, styled-components) + backend (Node, express and mongodb)).
- ❖ Worked on DanceOn (a platform that leverages machine learning, likely using TensorFlow, to analyze dance poses in user-uploaded videos or live camera feeds, frontend (Reactjs class-base components, typescript, tensorflow ) + backend (Node, express and mongodb)).
- ❖ Worked on Classification (same like OLX, frontend (Reactjs, typescript, styled-components) + backend (Nestjs and mongodb)).
- ❖ Working on Justnetwork (A linkedin type platform to manage user network, request, suggested users, take appointments based on membership and users availability, sync users google calendar and outlook calendar events and show user appointments/events in 4 different views like daily, weekly, monthly, and yearly, inbox chat, agora video call and share screen feature during meeting and also chat with user during meeting, buy coins, withdraw coins, get pro membership etc flow there, localization using i18n, frontend (Reactjs, typescript, styled-components) + backend (Node, express and sequelize, google, linkedin, outlook, stripe, paypal integrations).

### **Social Links:**

- ❖ LinkedIn:<https://www.linkedin.com/in/muhammad-tayyab-487b77192>
- ❖ Github: <https://github.com/Muhammad-Tayyab1>

### **HONORS & AWARDS**

- ❖ Received “The Punjab Educational Endowment Fund” (PEEF) scholarship in recognition of academic achievement in Graduation in 2017 (Annual).
- ❖ Recipient of Laptop by Chief Minister’s Laptop Scheme 2017 on excellent achievements in academics.

## SKILLS

- HTML
- CSS
- Javascript
- Typescript
- ReactJs
- Redux
- Material-Ui
- Tailwind css
- Styled-components
- Ant-Design
- Bootstrap
- NodeJs
- ExpressJs
- MongoDB
- Sequelize
- Nestjs
- Nextjs
- Gatsbyjs
- JQuery
- Netlify, Heroku, Vercel, GCP, (deployment)
- React-i18n (for translation)
- Jamstack E-commerce
- GraphQL
- Payment gateways integration like stripe, paypal
- A little about aws-service as infrastructure as code like aws-lambda, app-sync dynamodb, s3, sns, ses, sqs, cloud-watch, cloud-front, cognito, and some etc.
- A little about React-native using expo-cli, react-native cli, aws-amplify and native-base components

## Language Proficiency

Language	Proficiency Level
Punjabi/ Urdu	Native
English	Good
